What can mySkills myFuture do for me?

mySkills myFuture can help you find new career options to explore. You'll find details about careers that may be a good match for your skills. You'll also find local schools and training programs that can help you move into a new career, and you can even view and apply for job listings in your local area.

How does mySkills myFuture find the best career matches for me?

mySkills myFuture uses a unique skills-matching process to identify new career options based on your experience. We take the skills you may have used in your past job and find other careers where workers often use the same skills.

How do I get started?

It's easy to get started. From myskillsmyfuture.org, begin with any of the steps listed below.

The screenshot displays the mySkills myFuture website interface. At the top, three steps are listed: 1. Tell us a job you've had, 2. We'll find careers with similar skills, and 3. Pick a career and explore!. The main content area features a blue background with the text 'Build a bridge to your new career.' and a form to 'Enter your current or past job.' with a red 'FIND MY CAREER MATCHES' button. Below the form is a link for 'Already know the career you want to explore? Select a Career'. On the right side, there are four interactive buttons: 'Watch Help Video' (with a video thumbnail and step 4), 'Tell Us What You Think' (with a speech bubble icon and step 5), and 'New to the Workforce? Go to MY NEXT MOVE' (with a magnifying glass icon and step 6).

mySkills myFuture

1. Enter your Current or Previous Job

Type the name of a job you have held (such as nurse, machinist, or administrative assistant); we'll then show you other career that use similar skills. For best results, use a job that you have had the most experience in—whether it's the job you held most recently, or one you left several years ago.

2. Find My Career Matches

Click this button after you have typed your job name. mySkills myFuture will search for other careers that require skills similar to those for the job you typed in. These careers will be listed on a new page.

3. Select a Career

If you don't want to see career matches for a past or previous job, you can use this button to go directly to the career details about a job you're interested in.

4. Video: Learn about mySkills myFuture

View this video and see what mySkills myFuture can do for you. You'll also find a help video on each page under Watch a Video in the "Find Help" menu.

5. Tell Us What You Think

Click here for the mySkills myFuture Community, an online forum for users of the mySkills myFuture website. We'd like to hear what you think, including what you like, what you don't like, and where you think we should go in the future.

6. Visit MyNextMove.org

Students, first-time job seekers, and others without a career history can visit MyNextMove.org to understand how their skills can lead to the right career and job.

How do I move around on mySkills myFuture?

The easiest way to move around mySkills myFuture is to use the navigation bar at the top of each page

As you move through mySkills myFuture, the navigation bar builds. For example, if you select a career that involves apprenticeships, "Apprenticeships" will display on the bar. You can then click this area to display details on apprenticeship opportunities.
