It is a resource which will introduce you to manufacturing jobs in Will County and help you figure out which ones could be the right fit for you.

Career Opportunities

There are many job specializations and opportunities within the manufacturing field. You can train for a job as a supervisor or transportation and distribution manager in manufacturing and spend more time working with people or work independently operating and repairing machines. Different jobs also have different working environments. You could be working at a desk in an office, on a busy production floor or in a machine shop.

Of course, you don't have to stick to one career pathway. You may start in one career, and advance with experience and education into something different. Here are some manufacturing career pathway examples:

These career pathway examples are just a way to get you started – the next step is up to you!

Required Skills & Abilities

Many jobs in manufacturing require strong technical, math and science skills. Completing the required technical training is critical to landing a job in these professions and there are additional skills employers also look for. To move ahead in, and even begin your career, you will need to demonstrate good interpersonal and communication skills.

How many of these interpersonal manufacturing skills do you see in yourself?

- **Communication - writing, presenting, computer literacy**
- **Organization - time management, flexibility**
- **People management - teamwork, influencing, negotiation, leadership**
- **Critical thinking - problem solving, creativity, judgement**
